

LVC-104 EnviroFLOW Clearcoat

OVERVIEW

As part of PPG Refinishes continuous product improvement process, we have made some minor adjustments to LVC-104 Enviroflow Clearcoat and LVT-440 Low VOC Clearcoat Accelerated Thinner.

These modifications have been made to widen the products tolerance to variability in application and environmental conditions.

The changes made commence from the following batch numbers:

LVC-104 Enviroflow Clearcoat #019

LVT-440 Low VOC Clearcoat Accelerated Thinner #022

There are no changes to the Product Data Sheet information.

To ensure best results it is important that the Product Data Sheet is followed, particularly in regards to correct usage of the LVT-440 Low VOC Clearcoat Accelerated Thinner.

Kind Regards,

The Refinish Product Team
